NEW QUESTION: 1

Observe the following exhibit. Which path will be preferred by traffic destined to 10.1.3.1 and arriving at R1?

- A. through R2, since it is the path through Area 0
- B. through R3, since that is the lowest cost path (10+10 = 20, which is lower than 100)
- C. through R3, because R1 will only have a summary (type 3) LSA from R2
- D. through R2; this is the only path available for R1 to reach 10.1.3.0/24, since R3 is in a different autonomous system than R1 and R2

Answer: A

Explanation:

Here is the configuration in a lab environment along with the results. All routers are 3725 routers

R1 interface FastEthernet0/0 ip address 10.1.1.1 255.255.255.0

```

NEW QUESTION: 3

You have a UI element library.
You need to build a NuGet package to integrate the library into your projects.
What should you do? (To answer, drag the appropriate code elements to the correct location or locations in the answer area. Each code element may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.)

Answer:

Explanation:

Explanation

Reference: Creating and Publishing a Package
