- F. MLD is subprotocol of PIMv6.

Answer: D,E

NEW QUESTION: 2

DRAG DROP
DRAG DROP

Answer:

Explanation:

Explanation:

A new build of Office 365 ProPlus is released to the Microsoft Content Delivery Network (CDN) every 2nd Tuesday of every month. You would therefore need to configure a content delivery network. You can configure Office 365 ProPlus to get updates automatically from a location on your network, i.e. distribution point, using the Office Deployment Tool or Group Policy. This is a good option if you want to test to make sure that your line-of-business applications work with the new version.

The Office Deployment Tool makes use of a Configuration.xml file, which includes the instructions for what Office software to download from Office 365.
